

DVD+R DL

DVD+RECORDABLE DOUBLE LAYER

8.5GB of Storage on a Single-Sided DVD

From the Leader in DVD Double Layer Technology

Features

With Verbatim DVD+R DL media, you can record almost twice the data of a standard DVD disc on one single-sided disc. It's an ideal format for developing double layer DVD content as well as archiving home movies. And at 8.5GB, it's the largest compatible DVD backup and data archiving format for computer drives.

Benefits

With its extra capacity, you can record up to 4 hours of DVD-quality television and video, or up to 16 hours of VHS-quality video on just one disc. DVD+R DL discs are also read-compatible with most DVD-ROM computer drives and DVD video players. And each disc is backed by Verbatim's Limited Lifetime Warranty.

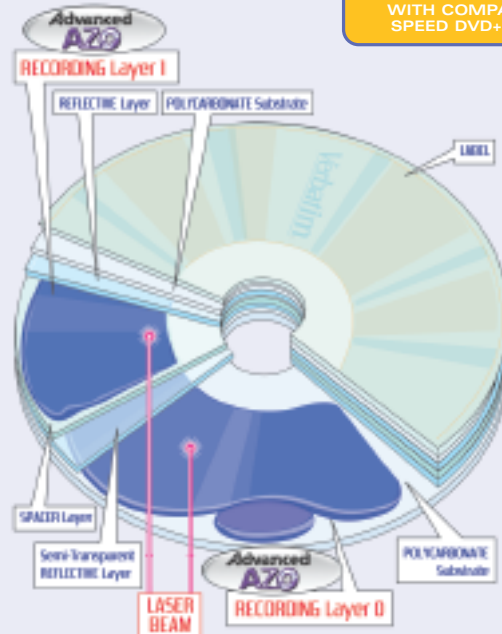

High-Capacity Recording

- Two AZO recording layers for nearly double the capacity of standard DVD recordable discs
- Single-sided format - no need to flip the disc
- Compatible with High-Speed Double Layer drives
- Compatible with current DVD standards
- Great for double layer DVD content development

Double Layer Drive Compatibility

Compatible with ALL Double Layer DVD+R hardware, 2.4X - 5X speed, including DL drives from BenQ, HLDS, LaCie, NEC, Sony, Philips, HP, Dell, Toshiba, Pioneer, Lite-On, Mad Dog Multimedia, and Samsung.

APPROVED FOR HIGH SPEED BURNING
WITH COMPATIBLE 4X/5X SPEED DVD+R DL DRIVES
