

Cartridge Installation Instructions

1. Turn off the printer. Press the release button to open the printer cover.

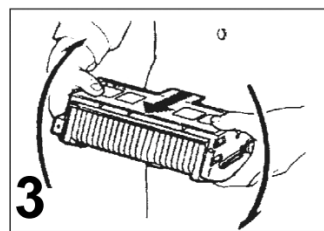

1

2. Remove used cartridge from the printer.

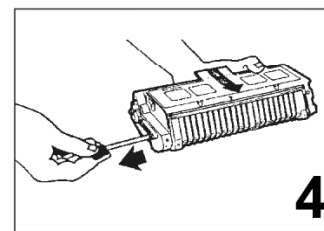

2

3. Remove the new cartridge from the plastic bag. Gently rock the replacement cartridge 5 to 6 times at a 45 degree angle to evenly distribute the toner.

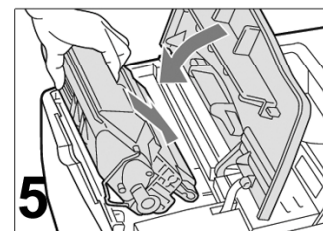

3

4. Remove the seal from the replacement cartridge by grasping the tab and pulling it straight out. *In the event this cartridge does not have a seal skip this step.*

4

5. Insert the replacement cartridge into the printer. Close the printer securely and turn the printer on.

5

Note: Printer & Cartridge Models may vary from the items seen here.
