

Verbatim expands offering of Portable Power Options with AC/USB Portable Power Outlet

Charlotte, NC, January 12, 2015 – Verbatim, the global leader in data storage technology including portable hard drives, USB flash drives, CDs, Blu-ray discs and memory cards, announces an exciting new addition to the existing range of Power Pack chargers – the Verbatim AC/USB Portable Power Outlet.

We've taken the AC Outlet, made it mobile and combined it with a USB Power Pack. The Verbatim AC/USB Portable Power Outlet offers 12,000mAh of portable power, when and where you need it. Directly charge laptops and other devices with the AC output (65W max). At the same time, easily charge tablets, smartphones and similar devices with the USB output.

"Our AC/USB Portable Power Outlet is the ultimate portable power solution," said Ron Hanafin, Verbatim's Product Manager, Peripherals and Accessories. "With the ability to charge either AC or USB devices, simultaneously, it's a must-have accessory for mobile devices."

Fully charged and ready to use in less than 3 hours, the Verbatim AC/USB Portable Power Outlet features LED status indicator lights letting you know how much power remains, and an on/off switch to allow you to conserve power when not in use. Additionally, a separate on/off switch controls electricity to AC outlet – helping prevent accidental shocks.

Use the AC Outlet with: *

- Laptops
- Small desk fans
- Desk lamps (60W bulb)
- Camera battery chargers
- Camcorder battery chargers
- And more!

Use the 2.4A USB port to charge:

- Tablets
- eReaders
- Smartphones
- Bluetooth headsets
- And more!

* 65W max

About Verbatim
