

## Connecting to an iPhone/iPad/iPod Touch

Please note that your device must be running the 4.0 operating system for the keyboard to be able to connect.

### Pairing the Keyboard

1) On your iPhone, iPad or iPod touch, go to "Settings". Then from the settings screen select "General".

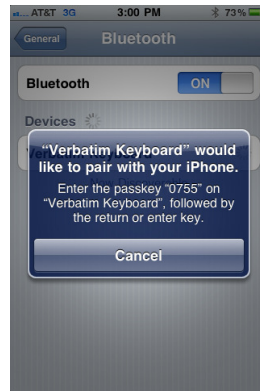

3) Now under the "General" settings select "Bluetooth".

4) Turn the keyboard on and press the bluetooth pairing button for 5 seconds. Once your device finds the keyboard select "Verbatim Keyboard" from the list.

4) Your device will now give you a 4 digit passkey. Enter this key using the Verbatim Mobile Wireless Keyboard and press enter to complete the pairing.

5) Now your Verbatim Mobile Wireless Keyboard will be connected. From this point forward you just need to switch the keyboard on and off when you need to use it. It will automatically reconnect when switched on.
